

## **SAFETY COMPLIANCE AUDITOR**

**DEPARTMENT: Safety**

**REPORTING TO: Director of Safety**

### **DESCRIPTION**

S&H Systems is a single-source, full-service systems integration company – delivering dependable material handling systems, software, and post-sale support since 2002.

We are seeking qualified candidates to oversee our on-site projects to ensure our employees are consistently meeting the safety standards set by both our clients and S&H. Successful candidates will be experienced, customer-centric, innovative and hands-on enthusiastic about Health and Safety in a professional context. You will also need to be able to identify, coordinate and promote improvements in Safety, while engaging operational and other support function stakeholders. Responsibilities include:

- Assisting with the delivery of safety performance and monitoring, in line with personnel, team and functional goals and objectives
- Supporting the implementation of safety programs within operations, while delivering key risk assessment activities
- Promoting compliance with local, state, and national legislation
- Preparing detailed and accurate near miss and/or accident reports with supporting documentation
- Assisting the Safety Director with the construction of near miss prevention programs
- Contributing to requests for improvement of on-site safety and positively impact accident trends
- Conducting random safety audits to verify processes, supplies and employee behaviors
- Assisting with the coordination and training of new team members
- Acting as a proxy for the Safety Director, as and when required
- Contributing to safety committee meetings

### **BASIC QUALIFICATIONS**

- Two-years' experience in overseeing safety processes of 29 CFR Part 1926 Safety and Health Regulations for Construction
- OSHA Occupational Safety and Health Standards certifications
- In-depth understanding of essential Environment, Health and Safety legislation

## **PREFERRED QUALIFICATIONS**

- Bachelors' degree in Occupational Health and Safety
- Three+ years of related experience along with Health and safety certification
- Strong communication, teamwork, analysis, judgment, and customer focus skills
- Experienced in emergency response and currently holds First aid and CPR certificates
- Passion for safety
